### Product Specifications and Order References:

#### Normal LED Strip

- Warm White - ORLR6012WW - Colour Temperature - 3000K - **203 Lumens per Meter**
- Cool White - ORLR6012CW - Colour Temperature 8000K - **221 Lumens per Meter**
- Power Consumption - 4.8W per meter
- Part L compliant with 42.29 Lumens per watt

#### Super bright LED Strip

- ORLR6012WW-SB (Warm White) - Colour Temperature - 3000K - **250 Lumens per Meter**
- ORLR6012CW-SB (Cool White) - Colour Temperature - 8000K - **261 Lumens per Meter**
- Power Consumption - 7.2W per Meter

#### Evolution LED Strip

- ORLR6012WW-ESB (Warm White) - Colour Temperature - 3000K - **400 Lumens per Meter**
- ORLR6012CW-SB (Cool White) - Colour Temperature - 8000K - **448 Lumens per Meter**
- Power Consumption - 9.6W per Meter
- Part L Compliant with 41.66 Lumens per watt

Drivers are available in the following wattages:

#### LED LENGTHS:

	Normal strip	Super bright	Evolution
18w	3m	2m	1m
30w DIM	6m	4m	3m
35w	7m	5m	3m
60w	12m	8m	6m
60wDIM	12m	8m	6m
100w	20m	14m	10m
150w	n/a	20m	15m
200w	n/a	n/a	20m

We do not power more than 20 metres in one run due to a potential voltage drop on longer lengths. It's very rare that someone would require a longer run and in this instance we are able to use boosters. Our LED strip can be cut every 5cm, rated to IP65 and warm white provides a "halogen like glow" at 2900K. The IP coating doubles up as dust resistant housing. Lifespan 50,000 hours if not dimmed.
